PERCEPTION

Perception is a taking in, a becoming aware of, a coming to know something by directly experiencing it through our senses and cognition. Our perception of everything in the world is self-referencing and affected by the current state of our personal, cultures and social issues. For artists, perception is also the ability to experience and respond to sensory information by using the skills and languages unique to the visual arts to express their reactions through tangible acts of creation.

Exhibit Dates: April 22 - September 6, 2024

VISUAL ARTS GALLERY, 2ND FLOOR, SANTA RITA (A) BUILDING, WEST CAMPUS*
